EDUCATION

Rajkiya Engineering College Sonbhadra　　　　　　　　　　**07 2020 – 07 2024**
Bachelor of technology (Computer science)　　　　　　　　　　*Sonbhadra, India*

SDS Intercollege Varanasi　　　　　　　　　　　　　　**2018 – 2020**
intermediate (PCM)　　　　　　　　　　　　　　　　　*Varanasi,India*

COURSEWORK / SKILLS

- Data Structures & Algorithms
- Operating Systems
- DBMS
- OOPS Concept
- Backend Development
- Cross platform Development

TECHNICAL SKILLS

Languages: Dart,Go,JavaScript,Python, Java,
Developer Tools: VS Code,Android Studio,GoLand,Intellij
Technologies/Frameworks: Flutter, Bloc, Riverpod, Provider, GetX, GIN, GORM, Postgresql, MySQL, Linux, NodeJS, ExpressJS, Git, MongoDB, DynamoDB, Serverless framework, AWS lambda, Firebase, GitHub,

WORK EXPERIENCES

Internshala 🔗　　　　　　　　　　　　　　　　　**Feb 2024 - Present**
Associate Software Engineer　　　　　　　　　　　　*(On-site) Gurugram*
- Promoted from intern to full-time role. Achievements include:
- Designed code architecture for iOS Flutter projects implementing Riverpod with clean architecture
- Developed centralized cookie management system for API interactions using Dio
- Implemented background API calling system and background processing infrastructure
- Built common API calling framework with standardized response handling and force update functionality
- Successfully delivered purchase module for iOS and implemented numerous UI components with state management
- **Technologies: Flutter (Riverpod), clean architecture, Dio, iOS development**

Visario 🔗　　　　　　　　　　　　　　　　　　**Sep 2023 - Feb 2024**
Full Stack Developer　　　　　　　　　　　*(Remote) Amsterdam-Netherlands*
- Developed full-stack user onboarding process with both frontend (Flutter) and backend (Go) implementation
- Built end-to-end visa application flow interface with seamless user experience and form validation
- Integrated Razorpay payment gateway for secure financial transactions within the application
- **Technologies: Flutter (Riverpod), Go, AWS (Cognito, Lambda, API Gateway, DynamoDB, S3 bucket)**

Subspace 🔗　　　　　　　　　　　　　　　　　**Oct 2023 - Dec 2023**
SDE Internship　　　　　　　　　　　　　　　　*(Remote) Bengaluru*
- Here my role is Development of applications using **Technologies: Flutter (Bloc), flutter-Animation, GraphQL API integration Node.js,**

AsyncApp YouTube 🔗　　　　　　　　　　　　　　**Feb 2023 - Present**
Educator　　　　　　　　　　　　　　　　　　*My own YouTube chanel*
- Creating and publishing educational content in video format. Leading the development of new projects and documentation. **Flutter, Go, Node.js, AWS**

GradClabs 🔗　　　　　　　　　　　　　　　　　**Jun 2023 - Aug 2023**
Internship　　　　　　　　　　　　　　　　　　*(Remote) Canda*
- Here my role was developed a website using Flutter. Implemented a full Chatbot system and WhatsApp automation used technology: **Flutter (Provider), Node.js, AWS (ES2 Instance), Firebase (functions, hosting, storage)** .

Sofodel 🔗　　　　　　　　　　　　　　　　　　**Oct 2022 - Jun 2023**
Internship　　　　　　　　　　　　　　　　　*(Remote)Delhi, India*
- Here my role was Focused on UI development. Assisted in the building and deployment of projects. using **Flutter (Provider, GetX), Node.js**

PROJECTS

Restaurant Management Suite | Go (GIN, GORM), PostgreSQL, Flutter, React   **Present**
- Developing end-to-end solution with multi-outlet management, tableside ordering, integrated POS, staff management, and automated inventory control.
- Designed with modular architecture using Go backend API, Flutter admin dashboard, and React customer-facing interfaces.

Parcha (Invoice & Inventory System) 🔗 | Flutter (Riverpod), SQLite, IndexDB   **12 2024 – 01 2025**
- Built cross-platform solution for complete shop management with inventory tracking, customer database, and customizable invoice generation.
- Implemented UPI-integrated payment QR codes on PDF invoices, multi-template support, and cross-platform storage solution working across desktop, mobile, and web.
- Live App

Utility Flutter for Pub.dev 🔗 | Flutter, Dart, HTTP, Shared Preferences   **10 2023**
- Open-source package simplifying HTTP and shared preferences operations in Flutter. Features include default headers, request timeouts, standardized error responses, and local variable storage.
- See on Pub.dev

Shyampatt (Painting Canvas and Whiteboard) 🔗 | Flutter, Riverpod, Hive DB, CustomPainter **09 2023**
- Digital whiteboard for Android TV/Windows PC. Drawing platform for Android/iOS with multiple drawing saves and children's templates.
- Live App

Full-Stack Blogging Platform 🔗 | Flutter, Node.js   **08 2023**
- User authentication and blog management (post, edit, delete). Cross-user blog visibility. Accompanied by instructional YouTube series.

File Size Reducer 🔗 | BLoC, Go Routes, Express.js   **09 2023**
- Reduces file quality as per user preference and retrieves files post-compression.

Real-Time Chatting Application 🔗 | GetX, Socket.io   **07 2023**
- Supports real-time group chats with user-specific nicknames.

WhatsApp AI Automation 🔗 | whatsapp-web.js, Axios, GPT API, AWS EC2   **06 2023**
- Transforms a regular WhatsApp number into an AI-powered chatbot.

Scheduled Email Sending API 🔗 | NodeMailer, Node-cron   **05 2023**
- Allows customizable email scheduling with user-defined intervals.

Dynamic Wallpaper Application 🔗 | Provider, Wallpaper API   **04 2023**
- Features extensive wallpaper browsing, direct setting, and search functionality.

Classic Snake Game 🔗 | Flutter   **11 2022**
- Classic snake game with real-time score and high-score tracking.

EXTRACURRICULAR

Team Leadership

- I am class representative of my branch in my college, and also I am head of skit department in our college.
